ELEVATE™

ENGINEERED FOR STRESS. BUILT TO ENDURE MOVEMENT.

SBS HT

Modern buildings demand more from roofing systems than ever before. Thermal cycling, structural movement, weather exposure, foot traffic, and installation pressure can all shorten roof life over time.

Elevate SBS HT Membranes are engineered to withstand those challenges, combining advanced SBS polymer technology with high-tensile composite (polyester/ fiberglass) reinforcement to deliver strength, flexibility, and long-term system performance where reliability matters most.

STRUCTURAL RESILIENCE

Designed to resist the forces that fatigue roofing systems over time.

- High-tensile Composite reinforcement
- Superior tear and puncture resistance
- Enhanced dimensional stability under movement and stress
- Supports long-term roof system integrity

FLEXIBILITY WITHOUT COMPROMISE

Strength that moves with the building.

- Maintains flexibility in low-temperature conditions
- Reduces cracking risk during installation and service life
- Reliable adhesion performance across demanding applications

LONG-TERM SYSTEM CONFIDENCE

Built for performance-driven commercial roofing assemblies.

- Advanced SBS formulation for aging and weather resistance
- Designed for long-term durability and warranty confidence
- Meets ASTM D6162 Type III performance standards

IDEAL APPLICATIONS

- DISTRIBUTION AND LOGISTICS FACILITIES
- MANUFACTURING BUILDINGS
- COLD STORAGE FACILITIES
- REROOF & RECOVER PROJECTS
- SCHOOLS AND INSTITUTIONAL BUILDINGS

HIGH-TENSILE COMPOSITE REINFORCEMENT

Enhances puncture, tear, and fatigue resistance

ADVANCED SBS-MODIFIED FORMULATION

Improves flexibility and long-term weatherability

ASTM D6162 TYPE III COMPLIANT

Exceeds ASTM D6162 Type III minimum requirements

LOW-TEMPERATURE FLEXIBILITY

Supports installation confidence in colder conditions

DIMENSIONAL STABILITY

Helps withstand building movement and thermal cycling

6162 Type III SBS HT Membranes

ASTM CLASSIFICATION			ITEM #	PRODUCT	TOP SURFACING Granule Color
ASTM	Type	Grade			
6162	III	S	W71ESP1225THT	SBS Torch Base HT	Smooth / Sand
6162	III	S	W71ESS1400HT	SBS Smooth HT	Smooth / Sand
6162	III	S	W71ESS1600HT	SBS Base HT	Smooth / Sand
6162	III	G	W71EUWS160FHT	SBS FR HT	UltraWhite
			W71EWS160FHT	SBS FR HT	White
6162	III	G	W71EUWP160FTHT	SBS FR Torch HT	UltraWhite
			W71EWP160FTHT	SBS FR Torch HT	White
